

## Yuasa Fiche de données techniques

### Yuasa DLMA-145 - Batteries de loisir

#### Performance

|                                         |        |
|-----------------------------------------|--------|
| Tension                                 | 12V    |
| Capacité (20 heures)                    | 145Ah  |
| Performances en démarrage à froid (EN1) | 900A   |
| Marine Cranking Amps (MCA)              | 1080A  |
| Watt Hour                               | 1740Wh |

#### Dimensions

|          |       |
|----------|-------|
| Longueur | 513mm |
| Largeur  | 189mm |
| Hauteur  | 223mm |

#### Poids & Mesures

|                        |      |
|------------------------|------|
| Poids moyen avec acide | 37kg |
|------------------------|------|

#### Caractéristiques du bac

|                                |                                                     |
|--------------------------------|-----------------------------------------------------|
| Type de bac                    | DIN A                                               |
| Schéma de montage              | 3                                                   |
| Système de fixation            | N                                                   |
| Indicateur de l'état de charge | ✓                                                   |
| Poignées                       | ✓                                                   |
| Sortie(s) d'aération           | ✓                                                   |
| Caractéristiques semi-traction | ✓                                                   |
| Type de couvercle              | Double capot<br>(anti-écoulement et sans entretien) |

#### Technologie

|                           |       |
|---------------------------|-------|
| Dispositif stop-flamme    | ✓     |
| Technologie               | Ca/Ca |
| Séparateur                | PE    |
| Taux de charge recommandé | 7A    |

#### Type de bornes

##### T1

Standard DIN Post

#### Schéma de montage des éléments

#### Système de fixation de la batterie

## Yuasa Technical Data Sheet

### Yuasa DLMA-145 - Leisure Batteries

#### Performance

|                            |        |
|----------------------------|--------|
| Voltage                    | 12V    |
| Capacity (20-hour)         | 145Ah  |
| Cold Cranking Amps (EN1)   | 900A   |
| Marine Cranking Amps (MCA) | 1080A  |
| Watt Hour                  | 1740Wh |

#### Dimensions

|        |       |
|--------|-------|
| Length | 513mm |
| Width  | 189mm |
| Height | 223mm |

#### Weights & Measures

|                       |      |
|-----------------------|------|
| Mean Weight with Acid | 37kg |
|-----------------------|------|

#### Container Features

|                           |                |
|---------------------------|----------------|
| Case Type                 | DIN A          |
| Cell Layout               | 3              |
| Hold Down                 | N              |
| State of Charge Indicator | ✓              |
| Handles                   | ✓              |
| End Venting               | ✓              |
| Semi-Traction Features    | ✓              |
| Lid Type                  | SMF Double Lid |

#### Technology

|                         |       |
|-------------------------|-------|
| Flame Arrestor          | ✓     |
| Technology              | Ca/Ca |
| Separator               | PE    |
| Recommended Charge Rate | 7A    |

#### Terminal Type

##### T1

Standard DIN Post

Positive Terminal

Negative Terminal

#### Cell Assembly Layout

#### Battery Hold-down
